General Manager of Developer Software

## Extreme Vision Computer Vision Solutions

From smart city, traffic, security, and manufacturing solutions, Extreme Vision provides advanced computer vision solutions that leverage Intel® Distribution of OpenVINO™ toolkit and Intel technology to efficiently and securely analyze video data. Extreme Vision's "Prohibited Item Detection and Identification Algorithm" has been deployed and is reliably operational in multiple stations in Shanghai Metro, Jiansu Huaqiao High Speed Railway Station, Suzhou Rail Transit, Hefei Airport, Shenzhen Metro, and other places.
