

PROCESS CHANGE NOTICE PCN0216 NEW WAFER FABRICATION SOURCE

Change Description:

Beginning January 2003, Altera will begin using STMicroelectronics as a new wafer fabrication source for selected serial configuration device flash products.

Reason For Change:

STMicroelectronics has been selected based on their outstanding quality and reliability performance, as well as, their ability to accommodate Altera's technology and volume requirements.

Products Affected:

EPCS1SI8
EPCS4SI8

Product Traceability and Transition Dates:

These devices will start shipping in January 2003. All EPCS1SI8 and EPCS4SI8 products will be manufactured at STMicroelectronics.

Contact:

For more information, please contact your local Altera® sales representative. Qualification reports are available on request.
